PART A - EXPLANATORY NOTES

A1. BASIS OF PREPARATION

(a) The unaudited condensed interim financial statements for the financial period ended 31 March 2022 have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss, debt instruments at fair value through other comprehensive income, equity instruments at fair value through other comprehensive income, derivative financial instruments and non-current assets/disposal groups held for sale and financial liabilities designated at fair value through profit or loss, that have been measured at fair value.

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board and paragraph 9.22 of Bursa Malaysia Securities Berhad's Listing Requirements.

The unaudited condensed interim financial statements should be read in conjunction with the Group's and the Bank's audited financial statements for the financial year ended 31 December 2021. The explanatory notes attached to the condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and the Bank since the financial year ended 31 December 2021.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2021, and modified for the adoption of the following accounting standards applicable for financial periods beginning on/after 1 January 2022:

- Amendment to MFRS 16 "COVID-19-Related Rent Concessions beyond 30 June 2021"
- Amendments to MFRS 116 "Proceeds before intended use"
- Amendments to MFRS 3 "Reference to Conceptual Framework"
- Amendments to MFRS 137 "Onerous Contracts –Cost of Fulfilling a Contract"
- Annual improvements to MFRS 9 "Fees in the 10% test for derecognition of financial liabilities"
- Annual Improvements to MFRS 1 "Subsidiary as First-time Adopter"
- Annual Improvements to Illustrative Example accompanying MFRS 16 Leases: Lease Incentives

The adoption of the above amendments to published standards did not give rise to material financial impact to the Group's and the Bank's financial statements.

The unaudited condensed interim financial statements incorporate those activities relating to Islamic banking which have been undertaken by the Group. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under Shariah principles.

(b) Covid-19 cases continued to rise at the start of 2022. However, given high vaccination rates, the spread of the Omicron variant has had much reduced impact as most countries eased their movement restrictions. In 2022, governments are expected to begin tapering from the expansionary fiscal and monetary policies implemented during the first two years of the pandemic. Nevertheless, geopolitical tensions and the threat of new Covid-19 mutations may disrupt the recovery momentum

The Group has supported its customers impacted by the economic downturn over the pandemic by providing targeted assistance programs. As customers migrate out of these programs, the various prevailing uncertainties will continue to be monitored and the Group will continue to keep track of asset quality.

The preparation of unaudited condensed interim financial statements in conformity with the MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed interim financial statements, and the reported amounts of income and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group and Bank's accounting policies. Although these estimates and assumptions are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

A2. CHANGES IN ESTIMATES

There were no material changes to financial estimates made in respect of the current financial period that had previously been announced or disclosed other than those disclosed under the basis of preparation.

A3 ISSUANCE AND REPAYMENT OF DEBT AND EQUITY SECURITIES

- a) During the financial period, Merdeka Kapital Berhad ("MKB"), a special purpose vehicle consolidated by the Bank, undertook a partial redemption of the Medium Term Note amounting to RM18.6 million.
- b) On 14 January 2022, CIMB Islamic redeemed its RM70 million Basel II Additional Tier 1 Perpetual Preference Shares from CIMB Bank.
- (c) On 20 January 2022, the Bank issued USD500 million 5-year fixed rate notes ("the Notes") under its USD5.0 billion Global Medium Term Note Programme. The Notes, which bear a coupon rate of 2.125% per annum payable semi-annually, will mature on 20 July 2027.
- d) On 8 March 2022, the Bank redeemed its USD15 million 5-year senior floating rate notes issued under its USD5 billion Euro Medium Term Note Programme established on 15 August 2014.
- e) On 15 March 2022, the Bank redeemed its USD500 million 5-year senior fixed rate notes issued under its USD5 billion Euro Medium Term Note Programme established on 15 August 2014.

A4. DIVIDENDS PAID

A single-tier second interim dividend of approximately 10.35 sen sen per ordinary share, on 6,289,967,774 ordinary shares amounting to RM651 million in respect of the financial year ended 31 December 2021 which was approved by the Board of Directors on 28 January 2022, was paid on 15 March 2022.

A5. EVENTS DURING THE REPORTING PERIOD/SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

In January 2022, the Group identified errors that was related to a specific third party financial remittance service, which led to a limited number of customers receiving duplicate credits in their accounts. The Group has since addressed and remedied these processing errors. After careful assessment of the incident, the Group has also implemented additional controls to prevent similar errors from occurring in the future. At the same time, the Group is embarking on a holistic review of preventive and detective controls and policies and procedures, surrounding its transaction processing infrastructure. In addition, the Group is committed to ensure and to enhance operational resilience.

The Group will take all necessary measures available to it to recover the duplicate payments, and these have commenced in 1Q FY2022. The Group had provided for the majority of the exposure, amounting to an ECL of RM280.9 million during the financial year ended 31 December 2021 and a full and final provision has been made in 1Q FY2022. This provision does not impair the Group's ability to pursue recovery measures. The financial impact are disclosed in A12 and A24(b).

There is no significant events that had occurred between 31 March 2022 and the date of this announcement other than those disclosed under issuance and repayment of debts and equity securities.

A6. CASH AND SHORT-TERM FUNDS AND DEPOSITS AND PLACEMENTS WITH BANKS AND OTHER FINANCIAL INSTITUTIONS

As at 31 March 2022, the expected credit losses in deposit placements maturing within one month and deposits and placements with banks and other financial institutions are RM117,000 and RM1,930,000 for the Group and RMNil and RM2,385,000 for the Bank. The 12-month expected credit losses written back/(made) in the income statements of the Group and the Bank during the financial period amounting to RM53,000 and (RM400,000) respectively (31 March 2021: expected credit losses written back amounting to RM22,000 and RM46,000 respectively).

^{*} Loans to Directors of the Group and the Bank (including Directors of subsidiary) amounting to RM3,001,187 (2021: RM2,992,941) and RM697,350 (2021: RM680,370) respectively.

A11. LOANS, ADVANCES AND FINANCING (CONTINUED)

- (a) Included in the Group's and the Bank's loans, advances and financing balances are RM23,268,000 (2021: RM23,684,000) of reinstated loans which were previously impaired and written off prior to 2005. The reinstatement of these loans has been approved by BNM on 5 February 2010 and were done selectively on the basis of either full settlement of arrears or upon regularised payments of rescheduled loan repayments
- (b) The Group and the Bank have undertaken fair value hedge on the interest rate risk of loans, advances and financing of RM1,437,481,000 (2021: RM1,353,719,000) and RM1,375,273,000 (2021: RM1,287,783,000) respectively, using interest rate swaps.
- (c) As part of an arrangement with CIMB Islamic in relation to the Restricted Profit Sharing Investment Accounts ("RPSIA"), the Bank records as deposits and placements with banks and other financial institutions, its exposure in the arrangement, whereas CIMB Islamic records its exposure as loans, advances and financing. The RPSIA arrangement exposes the Bank to the risks and rewards on the financing and accordingly, the Bank accounts for expected credit losses for financing arising thereon.
- As at 31 March 2022, the gross exposure and expected credit losses relating to RPSIA financing are RM3,687,120,000 (2021: RM3,844,040,000) and RM1,254,000 (2021: RM1,506,000) respectively.
- (d) Included in the loans, advances and financing of the Group and the Bank are financing which are disclosed as "Restricted Agency Investment Account" in the financial statements of CIMB Islamic. These details are as follows:

| | The G | The Group | | The Bank | |

Restricted Agency Investment Account ("RAIA") arrangement is with the Bank's wholly owned subsidiary, CIMB Islamic, and the contract is based on the Wakalah principle where the Bank, solely provide the funds, whilst the assets are managed by CIMB Islamic (as the Wakeel or agent). In the arrangement, CIMB Islamic has transferred substantially all the risk and rewards of ownership of the Investment (i.e the financing facility) to CIMB Bank. Accordingly, the underlying assets (including the undisbursed portion of the financing commitment) and expected credit losses arising thereon, if any, are recognised and accounted for by the Bank.

| At 31 December 2021 | 817,845 | 1,636,641 | 4,094,538 | 6,549,024 |

For the financial year ended 31 December 2021, the overlays and post-model adjustments have been applied to determine a sufficient overall level of ECL. These overlays and post-model adjustments were taken to reflect the latest macroeconomic outlook not captured in the modelled outcome and the potential impact to delinquencies and defaults arising from the escalation of credit risk on certain segments of the targeted repayment assistance loans.

A21. MODIFICATION LOSS

In light of the Covid-19 outbreak, the Central Bank and Ministry of Finance of respective countries have introduced several relief measures to assist customer/ borrowers. These measures aim to ensure that the financial intermediation function of the financial sector remains intact, access to financial continues to be available, and banking institutions remain focused on supporting the economy during these exceptional circumstances.

Modification loss is the Day-1 loss arising from granting the payment relief on all loans/ financing repayment.

¹ The long term incentive plan ("LTIP") was implemented by CIMB Group Holdings in June 2021. The LTIP awards ordinary shares and share options of CIMB Group to eligible employees of the Group and the Bank. The eligibility of participation in the LTIP shall be at the discretion of the LTIP Committee of CIMB Group Holdings Berhad, and the awarded shares and share options will be vested in stages at predetermined dates subject to continued employment and performance conditions.

| Expected credit losses and impairment allowances made/(written back): | | | | |
| - Debt instrument at fair value through other comprehensive income | 2,442 | 4,810 | 2,442 | 4,810 |
| - Debt instrument at amortised cost | (81,559) | (2,342) | (81,559) | (2,342) |
| - Money at call and deposits and placements with banks | | | | |
| and other financial institutions | 400 | (46) | 400 | (46) |
| - Other assets | 161,855 | 263 | 161,855 | 263 |
| | 83,138 | 2,685 | 83,138 | 2,685 |

Included in the other impairment allowance made for other assets during the financial year is ECL related to settlement of debit card balances. See A5.

A25. DERIVATIVE FINANCIAL INSTRUMENTS

The following tables summarise the contractual underlying principal amounts of trading derivative and financial instruments held for hedging purposes. The principal or contractual amounts of these instruments reflect the volume of transactions outstanding at the end of the reporting period, and do not represent amounts at risk.

Trading derivative financial instruments are revalued on a gross position basis and the unrealised gains or losses are reflected in "Derivative financial instruments" Assets and Liabilities respectively.

A25. DERIVATIVE FINANCIAL INSTRUMENTS (CONTINUED)

The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risks, as follows:

Market Risk

Market risk is defined as any fluctuation in the value arising from changes in value of market risk factors such as interest rates, currency exchange rates, credit spreads, equity prices, commodities prices and their associated volatility. The contractual amounts provide only a measure of involvement in these types of transactions and do not represent the amounts subject to market risk. The Group's risk management department monitors and manages market risk exposure via stress testing of the Group's Value-at-Risk (VaR) model, in addition to reviewing and analysing its treasury trading strategy, positions and activities vis-à-vis changes in the financial market, monitoring limit usage, assessing limit adequacy, and verifying transaction prices.

Credit Risk

Credit risk arises when counterparties to derivative contracts, such as interest rate swaps, are not able to or willing to fulfill their obligation to pay the Group the positive fair value or receivable resulting from the execution of contract terms. As at 31 March 2022, the amount of credit risk in the Group and the Bank, measured in terms of the cost to replace the profitable contracts, was RM12,105,550,000 and RM7,278,603,000 respectively (2021: RM11,827,855,000 and RM6,181,857,000 respectively). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Liquidity Risk

Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.

Cash requirements of the derivatives

Cash requirements of the derivatives may arise from margin requirements to post cash collatteral with counterparties as fair value moves beyond the agreed upon threshold limits in the counterparties' favour, or upon downgrade in the Bank's credit ratings. As at 31 March 2022, the Group and the Bank has posted cash collateral of RM2,775,314,000 and RM1,569,616,000 respectively (2021: RM2,897,982,000 and RM1,201,829,000 respectively) on their derivative contracts.

There have been no changes since the end of the previous financial year in respect of the following:

- a) the types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
- b) the risk management policies in place for mitigating and controlling the risks associated with these financial derivative contracts; and
- c) the related accounting policies.

The above information, policies and procedures in respect of derivative financial instruments of the Group and the Bank are disclosed in the audited financial statements for the financial year ended 31 December 2021.

A27. CAPITAL ADEQUACY

The capital adequacy framework applicable to the Malaysian banking entities is based on the Bank Negara Malaysia ("BNM") Capital Adequacy Framework ("CAF") (Capital Components)/Capital Adequacy Framework for Islamic Banks ("CAFIB") (Capital Components), of which the latest revision was issued on 9 December 2020. The revised guidelines took effect on 9 December 2020 for all banking institutions and financial holding companies and sets up the regulatory capital requirements concerning capital adequacy ratios and components of eligible regulatory capital in compliance with Basel III.

The risk-weighted assets of the Group and the Bank are computed in accordance with the Capital Adequacy Framework (Basel II - Risk-Weighted Assets), of which the latest revision was issued on 3 May 2019.

The IRB Approach adopted by CIMB Bank and CIMB Islamic Bank is applied for the major credit exposures with retail exposures on Advanced IRB approach and non-retail exposures on Foundation IRB approach. The remaining credit exposures and Market Risk are on the Standardised Approach while Operational Risk is based on the Basic Indicator Approach.

The capital adequacy ratios of CIMB Thai Bank is based on BOT Notification No. SorNorSor. 12/2555 Re: Regulations on Supervision of Capital for Commercial Banks, dated 8 November 2012. Credit Risk and Market Risk are based on Standardised Approach while Operational Risk is based on Basic Indicator Approach.

The regulatory compliance ratio of CIMB Bank PLC refers to the Solvency Ratio. The Solvency ratio is computed in accordance with Prakas B7-00-46, B7-04-206 and B7-07-135 issued by the National Bank of Cambodia. This ratio is derived from CIMB Bank PLC's net worth divided by its risk-weighted assets.

The capital adequacy ratio of CIMB Bank (Vietnam) Ltd. is calculated and managed according to local regulations as per the requirement of State Bank of Vietnam (SBV) in Circular 41/2016/TT-NHNN (dated 30 December 2016), which requires banks and branches of foreign banks to maintain the minimum CAR at 8% which covers credit, market and operational risk.

31 March 2022 - Basel III

(a) The capital adequacy ratios of the Group and the Bank are as follows:

| | The Group | The Bank* |
|--|-------------|-------------|
| Common equity tier 1 ratio | 14.764% | 14.091% |
| Tier 1 ratio | 15.456% | 14.912% |
| Total capital ratio | 18.846% | 18.063% |
| (b) The breakdown of risk-weighted assets ("RWA") by each major risk category is as follows: | | |
| | The Group | The Bank* |
| | RM'000 | RM'000 |

[^] Total capital of the Group and the Bank has excluded general provisions/portfolio impairment allowance from Tier 2 capital of RM403 million (2021: RM398 million) and RM183million (2021: RM176 million) respectively.

A28. SEGMENTAL REPORT

Definition of segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Group Executive Committee as its chief operating decision-maker.

The business segment results are prepared based on the Group's internal management reporting, which reflect the organisation's management reporting structure.

Business segment reporting

<u>Definition of segments</u>:

The Group has four major operation divisions that form the basis on which the Group reports its segment information.

Consumer Banking

Consumer Banking provides everyday banking solutions to individual customers covering both conventional and Islamic financial products and services such as residential property loans, non-residential property loans, secured personal loans, motor vehicle financing, credit cards, unsecured personal financing, wealth management, bancassurance, remittance and foreign exchange, deposits and internet banking services.

Commercial Banking

Commercial Banking offers products and services for customer segments comprising small and medium-scale enterprises ("SMEs") and mid-sized corporations. Their products and services include banking credit facilities, trade financing, cash management, online business banking platform, remittance and foreign exchange, as well as general deposit products.

Wholesale Banking

Wholesale Banking comprises Investment Banking, Corporate Banking, Treasury and Markets, Transaction Banking, Equities and Private Banking.

Investment Banking includes end-to-end client coverage and advisory services. Client coverage focuses on marketing and delivering solutions to corporate and financial institutional clients whereas advisory offers financial advisory services to corporations on issuance of equity and equity-linked products, debt restructuring, initial public offerings, secondary offerings and general corporate advisory.

Corporate Banking offers a broad spectrum of both conventional and Islamic funding solutions ranging from trade, working capital lines and capital expenditure to leveraging, merger and acquisition, leveraged and project financing. Corporate Banking's client managers partner with product specialists within the Group to provide a holistic funding solution, from cash management, trade finance, foreign exchange, custody and corporate loans, to derivatives, structured products and debt capital market.

Treasury focuses on treasury activities and services which include foreign exchange, money market, derivatives and trading of capital market instruments. It includes the Group's equity derivatives which develops and issues new equity derivatives instruments such as structured warrants and over-the-counter options to provide investors with alternative investment avenues.

Transaction Banking comprises Trade Finance and Cash Management which provide various trade facilities and cash management solutions.

Equities provides broking services to corporate, institutional and retail clients.

Private Banking offers a full suite of wealth management solutions to high net worth individuals with access to a complete range of private banking services, extending from investment to securities financing to trust services.

CIMB Digital Assets & Group Funding (previously known as Group Ventures & Partnerships and Funding)

CIMB Digital Assets (previously Group Ventures & Partnerships) drives all strategic partnerships across business lines Group-wide and explores strategic equity joint ventures in the ecosystem space. Group Funding encompasses a wide range of activities from capital, balance sheet and fixed income investments and management, as well as the funding and incubation of corporate ventures and projects.

A29. FAIR VALUE ESTIMATION

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Determination of fair value and fair value hierarchy

The fair value hierarchy has the following levels:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets; or
- Quoted prices for identical or similar assets and liabilities in non-active markets; or
- Inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 One or more inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets/liabilities are classified as Level 1 when the valuation is based on quoted prices for identical assets or liabilities in active markets.

Assets/liabilities are regarded as being quoted in an active market if the prices are readily available from a published and reliable source and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When fair value is determined using quoted prices of similar assets/liabilities in active markets or quoted prices of identical or similar assets and liabilities in non-active markets, such assets/liabilities are classified as Level 2. In cases where quoted prices are generally not available, the Group determines fair value based upon valuation techniques that use market parameters as inputs. Most valuation techniques employ observable market data, including but not limited to yield curves, equity prices, volatilities and foreign exchange rates.

Assets/liabilities are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data. Such inputs are determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

If prices or quotes are not available for an instrument or a similar instrument, fair value will be established by using valuation techniques or Mark-to-Model. Judgment may be required to assess the need for valuation adjustments to appropriately reflect unobservable parameters. The valuation models shall also consider relevant transaction data such as maturity. The inputs are then benchmarked and extrapolated to derive the fair value.

Valuation Model Review and Approval

- Fair valuation of financial instruments is determined either through Mark-to-Market or Mark-to-Model methodology, as appropriate;
- Market Risk Management is mandated to perform mark-to-market, mark-to-model and rate reasonableness verification. Market price and/or rate sources for Mark-to-Market are validated by Market Risk Management as part and parcel of market data reasonableness verification;
- Valuation methodologies for the purpose of determining Mark-to-Model prices will be verified by Group Risk Management Quantitative analysts before submitting to the GMRC for approval;
- Mark-to-Model process shall be carried out by Market Risk Management in accordance with the approved valuation methodologies. Group Risk Management Quantitative analysts are responsible for independent evaluation and validation of the Group's financial models used for valuation;
- Group Risk Management Quantitative analysts are the guardian of the financial models and valuation methodologies. Market rate sources and model inputs for the purpose of Mark-to-Model must be verified by Group Risk Management Quantitative analysts and approved by Regional Head, Market Risk Management and/or the GMRC;
- Model risk and unobservable parameter reserve must be considered to provide for the uncertainty of the model assumptions;
- The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer; and
- Independent price verification process shall be carried out by Market Risk Management to ensure that financial assets/liabilities are recorded at fair value.

A29. FAIR VALUE ESTIMATION (CONTINUED)

A30. OPERATIONS OF ISLAMIC BANKING (CONTINUED)

A30c FINANCING, ADVANCES AND OTHER FINANCING/LOANS (CONTINUED)

- a) During the financial period, the Group has undertaken fair value hedges on the profit rate risk of RM62,208,000 (2021: RM65,935,000) financing using Islamic profit rate swaps.
- b) Included in financing, advances and other financing/loans are exposures to Restricted Profit Sharing Investment Accounts ("RPSIA"), as part of an arrangement between CIMB Islamic Bank Berhad and CIMB Bank Berhad. CIMB Bank Berhad is exposed to risks and rewards on RPSIA financing and will account for expected credit losses for financing arising thereon.

As at 31 March 2022, the gross exposure and expected credit losses relating to RPSIA financing are RM3,687,120,000 (2021: RM3,844,040,000) and RM1,254,000 (2021: RM1,506,000) respectively.

| Deposits from customers - structured investments | 1,167,240 | 799,686 | - | |

The Group has issued structured investments, and has designated them at fair value in accordance with MFRS9. The Group has the ability to do this when designating these instruments at fair value reduces an accounting mismatch, is managed by the Group on the basis of its fair value, or includes terms that have substantive derivative characteristics.

The carrying amount of the financial liabilities designated at fair value of the Group as at 31 March 2022 is RM101,356,000 (2021: RM39,988,000) lower than the contractual amount at maturity. The fair value changes of the financial liabilities that are attributable to the changes in own credit risk are not significant.

A31. CHANGE IN COMPARATIVES

The Group has adjusted certain expenses which are considered as incremental and directly attributable to the acquisition of a financial liability and treated as an integral part of the effective interest/profit rate. These expenses were previously included under overheads and is now recognised as interest expense. The adjustment has no impact to the profit before taxation, profit after taxation, consolidated statements of financial position, cash flows and changes in equity of the Group for the financial period ended 31 March 2021.

PART B

B1. GROUP PERFORMANCE REVIEW

The Group registered a pre-tax profit of RM1,617.6 million for the three months period ended 31 March 2022, an increase of 15.5% as compared to the pre-tax profit of RM1,401.0 million reported in the previous corresponding period. The Group's net profit (attributable to the owners of the Parent) increased by 2.1% to RM1,128.3 million, equivalent to net earnings per share (sen) of 17.94.

The Group's year-on-year increase in earnings was mainly contributed by higher net interest income by RM77.4 million, lower overheads and expected credit losses for loans, advances and financing by RM45.0 million and RM300.1 million respectively. This was offset by lower net non-interest income and higher other expected credit losses and impairment by RM158.8 million and RM58.4 million respectively.

The Group's gross loans, advances and financing grew by 2.0% to RM329.1 billion while deposits from customers growing marginally 0.1% or RM0.33 million to RM357.8 billion, as compared to 31 December 2021.

The Group's Common Equity Tier 1 ratio stood at 14.764% as at 31 March 2022 from 15.185% as at 31 December 2021.

B2. PROSPECTS FOR THE CURRENT FINANCIAL YEAR

The Bank is optimistic of an improved financial performance in 2022 in view of business expansion on the back of anticipated regional economic recovery. The Bank remains cognisant of the threat of new Covid-19 mutations, upward pressure on interest rates in response to rising inflation, heightened geopolitical risks from the Russia-Ukraine conflict and risks of prolonged global supply disruptions. The Bank's direction will continue to be guided by the Forward 23+ strategic plan with targeted segment loan growth, sustained focus on CASA and Risk-Adjusted Return On Capital (RAROC) optimisation, as well as wealth management and capital market activity. This is expected to be achieved with the Sustainability agenda providing guideposts. Cost management remains a focus coupled with investment in technology to strengthen digital capabilities and operational resiliency. The Bank will continue to emphasise asset quality and credit risk management across segments and geographies particularly within pandemic-impacted customers and sectors.

B3. COMPUTATION OF EARNINGS PER SHARE (EPS)

a) Basic EPS

The Group and Bank basic EPS is calculated by dividing the net profit for the financial period after non-controlling interests by the weighted average number of ordinary shares in issue during the financial period.

| | The Group | | | |
|--|----------------------------------|-------------|-------------|-------------|
| | 1st Quarter Ended Three Months I | | | ths Ended |
