#### **PART A - EXPLANATORY NOTES**

#### A1. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The unaudited interim financial statements for the first quarter ended 31 March 2008 have been prepared under the historical cost convention, and modified by the revaluation of available-for-sale securities, securities held for trading and all derivative contracts.

The unaudited interim financial statements have been prepared in accordance with FRS 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board and paragraph 9.22 of the Bursa Malaysia Securities Berhad's Listing Requirements. These financial statements should be read in conjunction with the Group's audited financial statements for the year ended 31 December 2007.

The unaudited interim financial statements incorporate those activities relating to Islamic banking which have been undertaken by the Group. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic Securities under the Shariah principles.

The significant accounting policies and methods of computation applied in the unaudited interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the year ended 31 December 2007.

BNM has granted indulgence to the banking subsidiaries of the Company and other local banks in Malaysia from complying with the requirements on the impairment of loans under the revised 'Guideline on Financial Reporting for Licensed Institutions' ("BNM/GP8"). Under the revised BNM/GP8, the impaired loans have to be measured at their estimated recoverable amount. This requirement is principally similar to the requirements under FRS 139 - Financial Instruments: Recognition and Measurement. In view of the deferment of the implementation of FRS 139 in Malaysia, the banking subsidiaries of the Company and other local banks in Malaysia will be deemed to be in compliance with the requirement on the impairment of loans under the revised BNM/GP8 if the allowance for non-performing loans, advances and financing is computed based on BNM's guidelines on the 'Classification of Non-Performing Loans and Provision for Substandard, Bad and Doubtful Debts' ("BNM/GP3") requirements.

The preparation of unaudited interim financial statements in conformity with the Financial Reporting Standards and Bank Negara Malaysia Guidelines requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited interim financial statements, and the reported amounts of income and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group and Company's accounting policies. Although these estimates and assumptions are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

#### Part B - Explanatory Notes Pursuant to BNM/GP8 Guidelines on Financial Reporting for Licensed Institutions

## B1. GROUP PERFORMANCE REVIEW COMPARISON WITH THE PRECEDING QUARTER'S RESULTS

#### **BCHB Group Results**

Bumiputra-Commerce Holdings Berhad Group ("the Group") today reported a net profit of RM535 million for the first quarter ended 31st March 2008, 10% higher than the RM486 million earned in the previous quarter. Revenues and profit before tax ("PBT") were up 2% and 1% to RM2.019 billion and RM749 million respectively compared to 4Q07. Net earnings per share of 15.9 sen was up 11% from 4Q07. The Group's annualised net return on equity ("ROE") for 1Q08 was 13.6% compared to 13.0% in 4Q07. Compared to 1Q07, revenues and net profit declined by 4% and 13% from RM2.103 billion and RM615 million respectively.

Given the tough global and domestic capital market environment, the decline in the Group's earnings from the capital markets was less than would have been anticipated. More significantly, the Malaysian consumer bank saw a sharp increase in its contribution to profits as financial results of the transformation initiatives begin to show. The Group is now more balanced in the sources of earnings, and less dependent on the capital markets

For the first three months of the year, profit before tax ("PBT") from the Malaysian consumer bank was an estimated 68% higher than 4Q07, contributing 22% of total PBT compared to 15% on average for 2007. Meanwhile, investment banking and treasury contribution was 27% and 36% respectively. Bank Niaga's contribution was unchanged at 13% of the Group's PBT over the quarter.

The Group's total loans grew by 7.1% over the 12 months to 31st March 2008 driven by growth in mortgages, credit cards and the Group's micro credit loans of 23.2%, 37.1% and 105.7% respectively. Adjusting for loans written off, the loan book grew by 8.4%. The corporate lending book rose by 3%. However, business loans and hire purchase loans contracted by 3% and 9% respectively in line with the Group's continued emphasis on restructuring its loan portfolios in these segments. Bank Niaga's loans grew 32.5% in IDR terms (20.0% in RM terms). Total Group deposits grew 26% with domestic consumer deposits growing 20% from a year ago.

Loan provisions fell 34% whilst overhead expenses increased 8% year on year. The improvement in loan loss provisions came mainly from the consumer banking division as efforts to improve asset quality over the last 2 years have started to translate into lower credit charges. The Group continued to show strong improvements in asset quality indicators with its lower net NPL ratio of 3.7% from 5.6% over the year and 3.8% over the quarter. Loan loss coverage ("LLC") ratio stood at 71.9% as at 31st March 2008, up from 59.0% a year ago and 69.3% as at 31st December 2007. The Group's cost to income ratio for the first quarter 2008 was 52.7% compared to 56.1% for 4Q07 and 46.9% in 1Q07.

The Group's shareholders funds increased from RM15.7 billion to RM15.8 billion over the quarter, lifting net tangible asset and book value per share to RM3.21 and RM4.71 per share respectively.

With the issuance of the RM1.5 billion CIMB Bank sub debt on 28th March 2008, the risk weighted capital adequacy ratio for CIMB Bank rose to 14.4% as at 31st March 2008 compared to 12.5% at the end of 2007. BCHB's double leverage and gearing stood at 117.6% and 34.0% respectively as at 31st March 2008.

#### **Bank Niaga Results**

Bank Niaga reported a net profit of IDR207 billion for the first quarter ended 31st March 2008, resulting in a ROE of 17.0% for 1Q08. The first quarter net profit achieved is a 15% improvement over the quarter and a 2% improvement over the year.

Mortgages, which represent 22% of the bank's total loans, grew 25% over the year to IDR9.6 trillion as the bank retains a strong mortgage market share of about 9.4%. Cost to income ratio as at 31st March 2008 was 58.85%.

#### **B2.** CORPORATE DEVELOPMENTS

The significant corporate developments in 1Q08 were:

- a) CIMB Bank / SBB merger
- The Group has achieved RM85.6 million in synergies for the first quarter, meeting year to date SBB-BCB synergy target by 171%.

#### b) CIMB-Niaga Synergy Programme

• The Group has achieved RM13.8 million in synergies for the first quarter. This is only 32% of the year to date target as our 1Q priority was on the proposed Niaga-Lippo merger.

#### c) Streamlining of businesses

• On 1st April 2008, BCHB entered into a Sale and Purchase Agreement with British American Investment Co. (Mtius) Ltd. to dispose of its 60% equity interest in SEA Bank for a total cash consideration of approximately 339 million Mauritius Rupees (or approximately RM40.0 million) which will result in a gain of approximately RM15.9 million to BCHB Group.

#### d) Mergers & acquisitions and partnerships

- On 17th March 2008, the Group announced its proposed acquisition of 19.99% in Bank of Yingkou in Liaoning Province for RM156 million valued at 1.58x adjusted book and 8.81x FY07 price earnings.
- On 16th April 2008, BCHB obtained approval from China Banking Regulatory Commission ("CBRC") to open a Shanghai representative office.

#### e) Capital management

- BCHB has bought back 22.476 million BCHB shares at an average price of RM9.91 since 1st January to 7th May 2008. To date, 5.353 million shares have been cancelled
- Final dividend of 25 sen for FY07 is payable on 30th May 2008
- CIMB Bank issued a RM1.5 billion subordinated bonds on 28th March 2008.
- CIMB Bank has issued a Request for Proposal for its proposed sale of RM1.5 billion non-performing loan assets.

#### B3. PROSPECTS FOR THE CURRENT FINANCIAL YEAR

The Group is optimistic that it will be able to meet its 18% ROE target for 2008 as it expects contribution from consumer banking to continue to improve and the capital markets pipeline remains healthy. The Group acknowledges however that it is contending with much weaker capital markets and domestic economic outlook than it anticipated and will have to look at additional revenue maximizing and cost savings strategies going forwards.
