DISCLAIMERS

- This report is provided for information purposes only.
- The information presented is correct as at the reporting date stated. This report does not contain all relevant information in respect of the CIMB Sustainability Sukuk. All information is subject to change without notice or update.
- Investors should make their own assessment and seek their own independent professional advice to enable them to make any decision concerning their investment in the CIMB Sustainability Sukuk.
- Any forward-looking statement is a present prediction of a possible future outcome, the accuracy of which cannot be guaranteed. Past performance should not be deemed as a guide to future performance.

Introduction

CIMB Group Holdings Berhad (“**CIMB Group**” or “**the Group**”) recognises the impacts of our business and decisions on the wellbeing of stakeholders and the environment. Our commitment is to operate in a way that assumes accountability and responsibility for our actions, while minimising negative impacts and creating a net positive impact on people and the planet. Setting our sights on becoming the leading focused ASEAN bank and a future shaper of sustainable practices, we integrated sustainability as one of the key elements of our strategic theme to become a purpose-driven organisation. After six years of commencing our sustainability journey, we have managed to make considerable strides on different fronts. Our target of achieving the 75th percentile of the Dow Jones Sustainability Index (“**DJSI**”) ranking by 2024 was accomplished three years ahead of schedule. In 2024, we maintained our position on DJSI at the 88th percentile from which we started at the 19th percentile in 2018.

Commitments & Targets

- A founding member and the first signatory bank of the United Nations Environment Programme Finance Initiative (“UNEP FI”) Principles for Responsible Banking in ASEAN
- A signatory of the UNEP FI’s Collective Commitment on Climate Action, contributing to local and global climate-related efforts
- The first ASEAN bank to join the Net-Zero Banking Alliance (“NZBA”), committing to aligning our investments and financing with net-zero emissions by 2050
- A top ASEAN banking group with a clear Sustainability Roadmap, having demonstrated a marked improvement in ranking on DJSI, from the 19th percentile in 2018 to the 88th percentile in 2023, which we had maintained in 2024

Positive Impact Maximisation

- Introduced the Positive Impact Products and Services (PIPS) Framework, which considers economic, environmental and social factors when designing financial solutions
- Introduced new banking products and services including Sustainability-Linked Financing for small and medium-sized enterprises, to incentivise our clients to improve their sustainability performance
- In 2020, the PIPS Framework was revamped as the Green, Social, Sustainable Impact Products and Services (GSSIPS) Framework. Our target to mobilise RM10 billion in sustainable finance under GSSIPS Framework was achieved ahead of schedule. This commitment was subsequently raised to RM30 billion in 2021, and then more than tripled to RM100 billion by 2024 in September 2023

Risk Mitigation

- Operationalised the Group Sustainability Risk Management Framework that integrates environmental and social risks into enterprise risk management strategies
- Established and rolled out two anchor policies, i.e., Group Sustainability Policy and Group Sustainable Financing Policy to tackle environmental and social risks associated with our lending and day-to-day operations
- Introduced seven sector guides covering palm oil, forestry, construction and infrastructure, oil and gas, coal, mining and quarrying as well as manufacturing
- Commit to phasing out coal from portfolio by 2040 to align with the 1.5°C goal of the Paris Climate Agreement
- Established decarbonisation targets for our Coal, Cement, Palm Oil, Power, Real Estate, and Oil & Gas portfolio

Awareness Building & Partnerships

- Institutionalised The Cooler Earth Sustainability Summit to increase market awareness of the importance of sustainability and to mobilise support of key stakeholders in the ecosystem
- Demonstrated commitment through participation in various industry-level and policy-level dialogues and action-oriented platforms, such as Bank Negara Malaysia’s Joint Committee on Climate Change and Community of Practitioners for Value-Based Intermediation, which has been set-up to steer and drive convergence for climate responses and sustainable efforts among Malaysian banks
- Founded CEO Action Network (CAN) to institutionalise a peer-to-peer informal network of CEOs for sustainability advocacy, capacity building, action and performance

Overview of CIMB Sustainability Sukuk

As a leading bank in ASEAN, we are cognisant of our responsibility to support and work towards the SDGs. This is against the backdrop of many studies which have pointed the need to plug a financing gap worth trillions of dollars in order to meet the SDG ambitions. In this regard, CIMB Bank Berhad ("**CIMB Bank**") established the CIMB SDG Bond Framework in 2019. This framework is benchmarked against the Green Bond Principles ("**GBP**"), Social Bond Principles ("**SBP**") and the Sustainability Bond Guidelines ("**SBG**") of the International Capital Markets Association ("**ICMA**") as well as the ASEAN Sustainability Bond Standard ("**ASEAN SUS**") issued by the ASEAN Capital Markets Forum ("**ACMF**").

Second Party Opinion

CIMB Bank obtained a second-party opinion on CIMB Group SDG Bond and Sukuk Framework from Sustainalytics on 15 October 2021, confirming its alignment with ICMA's GBP, SBP and SBG as well as ACMF's ASEAN GBS, ASEAN SBS and ASEAN SUS.

In October 2021, the CIMB SDG Bond Framework was updated to CIMB Group SDG Bond and Sukuk Framework with the following main changes: (a) to insert a sukuk component; (b) to consolidate the SDG Bond and Sukuk Framework under CIMB Group; and (c) to include new forms of eligible assets. The CIMB Group SDG Bond and Sukuk Framework was revised and prepared in accordance with the GBP, SBP, SBG issued by ICMA in June 2021, as well as the ASEAN Green Bond Standards ("**ASEAN GBS**"), the ASEAN Social Bond Standards ("**ASEAN SBS**") and the ASEAN SUS issued by ACMF in 2018.

CIMB has since then been keeping up our strong commitment to sustainability and acting as a catalyst for real sustainable action in ASEAN. In October 2023, CIMB Group successfully issued an Additional Tier 1 Sustainability Sukuk Wakalah of RM400 million and Tier 2 Sustainability Sukuk Wakalah of RM900 million, under the Sukuk Wakalah Programme of Ringgit Malaysia Fifteen Billion (RM 15,000,000,000.00). Proceeds from CIMB Sustainability Sukuk will be utilised to finance investments in Islamic financial investments, Islamic business activities, refinancing and in any other Shariah-compliant business activities that align with the CIMB Group SDG Bond and Sukuk Framework.

As at 30 June 2024, the proceeds from the CIMB T2 Sustainability Sukuk issuance have been fully allocated to Eligible Assets in line with the CIMB Group SDG Bond and Sukuk Framework, as illustrated in the diagrams below:

Business Unit	% of MYR1.14 bil
Consumer Banking	100
Geographic Allocation of Eligible Assets	Malaysia only
Total Portfolio Size of Eligible Assets	MYR 1.14 billion
Number of Eligible Assets	5,853

Eligible Assets Register*

SDG	GBP/SBP Category	Eligible Asset/ Portfolio Description ¹	Sukuk	Impacts	Asset Value (MYR mil)
Goal 10: Reduced Inequalities	Affordable Housing	Build or purchase affordable housing or social housing	CIMB AT1 Sustainability Sukuk	• Enabled more than 2,200 retail customers who earn not more than RM4,850 per month to purchase their homes in various parts of Malaysia at an affordable price (not more than RM500,000 per property) since 2023	460.06
			CIMB T2 Sustainability Sukuk	• Enabled more than 5,800 retail customers who earn not more than RM4,850 per month to purchase their homes in various parts of Malaysia at an affordable price (not more than RM500,000 per property) since 2023	1,135.05
Total allocated assets amount for CIMB Sustainability Sukuk [#]					1,595.11

Reporting Notes:

¹ Names of borrowers are not provided due to confidentiality concerns.

*The proceeds of the CIMB AT1 Sustainability Sukuk and CIMB T2 Sustainability Sukuk was fully allocated as of June 2024 respectively, based on outstanding amounts registered as at 30 June 2024, which was communicated to and concurred by Sustainalytics.

[#] Overallocation of assets beyond the net amount of proceeds raised is to provide a buffer against potential drawdowns, non-performing financing etc., as per market best practice.

Annual Review by Sustainalytics

In 2025, CIMB engaged Sustainalytics to review the projects funded through the issued CIMB AT1 Sustainability Sukuk and CIMB T2 Sustainability Sukuk and provide an assessment as to whether the projects met the Use of Proceeds criteria and the Reporting commitments outlined in the CIMB Group SDG Bond and Sukuk Framework (2021).

Based on the limited assurance procedures conducted, nothing has come to Sustainalytics' attention that causes them to believe that, in all material respects, the reviewed sukuk projects, funded through proceeds of CIMB Sustainability Sukuk, are not in conformance with the Use of Proceeds and Reporting Criteria outlined in the CIMB Group SDG Bond and Sukuk Framework (2021).
